All-Purpose Cleaner

# Advance

## FACT SHEET

Restrooms present one of the most demanding and undesirable cleaning challenges. Manually wiping and scrubbing fixtures and other hard surfaces is time-consuming, exposes cleaning staff to unsanitary conditions and often falls short of cleanliness standards. Advance's All-Purpose Cleaning System offers touch-less cleaning that is up to three times faster than traditional methods, all in a compact unit smaller than a shopping cart.

The All Cleaner™ XP packs the cleaning power you need while running circles around your old equipment. Sure, the automatic chemical system, indoor pressure washer, powerful liquid recovery vacuum and stretch hoses offer a significant upgrade over hand-cleaning, but what's functionality if it's not accessible and easy to use? All standard tools and other cleaning accessories fit neatly into the All Cleaner XP's small design. That means no more lugging around heavy equipment or dragging hoses – operators can easily maneuver the unit in restrooms, stairwells and other tight spaces.

When it comes to versatility, the All Cleaner XP makes the most of its small design. Its open chemical system allows use of any two chemical bottles (including green cleaning approved solutions) and controls the dilution rate for the proper application each time. And whether your bottle is round or rectangle, it will fit in the holding wells on the All Cleaner XP.

The All Cleaner XP has a powerful 500 psi pump. Combine the pump strength with the variable spray gun and you can attack the most challenging cleaning projects.

Advance's All Cleaner XP answers the call for an affordable, touch-less approach to cleaning restrooms and other areas with hard surfaces. You'll improve productivity and see better results – now that's smart cleaning.
